Cochin, 23rd February 2020

TRUMP'S VISIT IS A SNARE FOR SHADY DEALS Observe Blackday on 24/02/2020

US president Donald Trump's visit to India that begins on Monday is no way of fraternal intent in design and content. When the interests of our nation and the people are considered, his visit works as a snare for shady deals between the Yankee imperialist master and the servile communal fascist regime in Delhi. Nothing is declared open and transparent regarding the agreements that are going to be signed. What all news have come out about it have caused grave concern regarding agrarian sector with far reaching adverse effects.

Trump, an all the more warmongering and racial-discriminatory US president notorious for his unilateral violations of and withdrawals from international agreements and the nastiest champion of planned assassinations undoubtedly is at present the most condemned imperialist ruler in the world. The communal fascist aim at glossing over its draconian lockout of J&K, and anti-republic CAA- NRC- NPR sabotage by way of signing deals of national servitude with Trump. Whereas, Trump administration all the more attempts to coercedly twist Indian foreign policy to suit US-Zionist Israeli interests; and, to single out India in the region alienating from almost all the neighbours.

We condemn this neo-colonial master-slave deal between Trump and Modi that is sure to harm the strategic interests of the nation and the people.

We call upon left, secular and democratic forces to rally in protest to Trump's Visit of malicious and nontransparent intent and Observe Black Day on 24/02/2020.

MS JAYAKUMAR

General Secretary
