## **CENTRAL COMMITTEE**

Cochin, 29th April 2021

### **MAY 1: NATIONAL PROTEST DAY**

#### **Fight to Eradicate Covid 19 And Save the Lives of Millions**

The second wave of the Covid19 pandemic has inflicted the worst impact upon the people of our country. The national healthcare situation has deteriorated beyond heartbreaking limits that the people are left to die choking because they did not get oxygen. Availability of Hospital beds has become a high privilege. Drugs and pharmaceuticals are sold in the black market as hoarders have cropped up reaping huge profit. It is a murderous business over the rows of corpses and it is being abetted by the Modi government that has flagged off these packs of bloodhounds by declaring that vaccines could be sold on profit hiking the prices. It is a shame that the union government throws the people so openly to the drug thugs and makes the state governments subservient to them. The modi government should immediately stop this 'merchandising-life-bargaining-with-death' policy and exercise its powers to wield the laws to increase the production of oxygen, vaccines, life saving drugs and other pharmaceutical equipments to sufficient levels and should put down the drug thugs who hoard and black market the said articles and facilities that are essential for the millions who struggle for life line.

Moreover, as a pandemic of such global proportion, chronic nature and of unprecedented sustenance has to be fought with the whole might and unity of mankind for the supreme end of the existence of the human race, International help, especially from the neighbouring countries, and the governing guidance of the WHO are must. We must never forget that no narrow parochial and sectarian omissions are revered by the mutating virus. Hence, and open to world policy should be adopted for the above said kind of receiving and rendering help cutting man made borders.

A pandemic eradication programme should be chalked out inclusive of all the said, taking state governments into confidence, doing disciplined and committed home work, and fielding dedicated manning in the front line of execution. Pandemic districts, tehsils and villages must be demarcated in clinical precision and strict scientific preferences in medical terms. Action must be started immediately on war footing under duly powered Pandemic Eradication Officers, with hand in hand associational action by LSGs.

- Free vaccine for all;
- Enough oxygen, drugs and health care facilities for all;
- Down with profiteering hoarding and black marketing of drugs and medical equipment;
- 'Open to world policy' for the pandemic eradication drive must be the word and deed of the governments, receiving help and aid from countries especially from neighbours and such giving help to others as well.

Demanding the above said, protesting strongly against the Modi government's present policies and line of action that are diametrically opposite to the said goal, the party is to observe May 1st as National Protest Day.
