Support
The Bharat Bandh
On September 27

The peasantry from various states is waging a relentless struggle around national capital demanding the repeal of the anti-farmer laws that in effect permit capitalist monopolies to enter the market with means of manipulation that can sabotage the present procurement system of APMC markets that ensure defined minimum support prices.

The Modi government has turned a blind eye to the intensifying peasant struggle, refusing to talk with the fighting farmers. Along with the peasants we have demanded that the said Agri-laws be repealed immediately and the procurement system with guaranteed prices be established for all the crops.

Hence, we call upon the left, democratic and patriotic forces to rally to make the Bharat Bandh called by the Samyukta Kisan Morcha on 27th September a big success .
